

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please complete this checklist as completely and as accurately as possible. In the box provided beside each item, please enter the number corresponding to your skill level according to the key below. Fax completed checklist to (866) 868-0546.

1-No Experience    2-Some Experience    3- Can perform independently    4- Proficient/can supervise and teach

<b>NEUROLOGICAL SYSTEM:</b>	<b>Level:</b>	<b>CV / CIRCULATORY:</b>	<b>Level:</b>
Assess level of consciousness		Ability to perform 1 person rescue:	
Assess sensory motor function of Extremities		(CPR) infant/child	
Assess cranial nerves		adult	
Assist with lumbar puncture		Assess heart sounds (normal vs. abnormal)	
Halo traction		Basic EKG interpretation	
Pre/post op neuro surgical care		Initiation of arrest procedure	
Seizure precautions		Administration of meds during arrest procedure	
Documentation of seizures		JVD	
Shunts (ie: ventriculoperitoneal)		Peripheral pulses	
Use of Glasgow Scale		Set up/rum 12 lead EKG	
Use of anticonvulsants:		Use of cardiac monitor	
Oral		Use of coppier	
IM		Care of patients with:	
IV		Aneurysm	
Care of patients with:		Acute CHF	
Acute head injury		Acute MI	
Aphasia		Blood lymph disease	
Autonomic dysreflexia		Cardiac surgeries	
Cancer of the brain		CVA	
Craniotomy		Femoral bypass/vascular procedure	
CVA		Pacemakers	
Head trauma		Transplant/cardiac	
Impending D.T.'s		Pre Post Cardiac Cath/ Angioplasty	
Multiple Sclerosis		Carctidendarectomy	
Parkinson's			
Quadraplegia			
Seizure disorders			
Spinal cord injury			

Name: \_\_\_\_\_ Date: \_\_\_\_\_

1-No Experience    2-Some Experience    3- Can perform independently    4- Proficient/can supervise and teach

<b>RESPIRATORY:</b>	<b>Level:</b>		<b>Level:</b>
Amou techniques		Ventilators:	
Aorea monitor usage		pressure pre-set	
Assess lung sounds		volume pre-set	
Knowledge of abnormal & Adventitious breath sounds		CPAP	
Chest tube maintenance and care		PEEP	
Establish airway		portables	
Incentive spirometer		list type of ventilators:	
IPPB Machine		-	
Nebulizers		-	
Oxygen therapy:		-	
nasal cannula		-	
ET intubation/extubation			
face mask		Care of patients with:	
precautions		AIDS	
use of portable oxygen tank		ARDS	
Pulmonary Hygiene		Asthma/wheezing	
oral suctioning		CA of lung	
tracheostomy suctioning		COPD	
chest physiotherapy (CPT)		Emphysema	
determining proper catheter size		Pneumonia	
Thoracentesis		Pneumothroax	
Tracheostomy:		Pulmonary edema	
cleaning of inner cannula		TB	
changing trach or tube		Transplant/pulmonary	
emergency management of		Tracheotomy	
S&S of infection			
skin care			
dressing changes			

Name: \_\_\_\_\_ Date: \_\_\_\_\_

1-No Experience    2-Some Experience    3- Can perform independently    4- Proficient/can supervise and teach

<b>GI / NUTRITION:</b>	<b>Level:</b>		<b>Level:</b>
Abdominal drains:		Removal of fecal impaction	
Care and maintenance of		Use of pumps for enternal feedings	
Assess GI status		Tube feedings	
Bowel training		list type of pumps:	
Dehiscence		-	
Enemas (Fleet or soapsuds)		-	
Gastrostomy tube care:		-	
G-tube feedings		-	
G-tube change		T tube	
J tube			
N-G tube insertion/reinsertion		Care of patients with:	
N-G tube feedings		Anorexia	
N-G tubes (ie: Levine, Salem Sump)		Bowel disease	
Nasal intestinal tubes (ie:Miller-Abbot, Cantor)		Cancer of colon	
Cstomy/stoma care		Cancer of esophagus	
Cstomy irrigations		Cancer of rectum	
Education to new patients		GI bleeds	
Pereceniesis		Hepatic Encephalopathy	
Parenteral feedings		Hepatitis	
Complications of		Inflammatory bowel disease	
Indications for		Liver failure	
Routes of administration		Liver transplant	
Verification of fluid and caloric requirements

1-No Experience    2-Some Experience    3- Can perform independently    4- Proficient/can supervise and teach

<i><b>GI / ENDOCRINE:</b></i>	<i><b>Level:</b></i>		<i><b>Level:</b></i>
Bladder irrigations		GU irrigation	
Bladder training		Ileostomy care	
Care maintenance and removal Indwelling catheter:		Intermittent catheterization	
3-Way catheter		Nephrostomy tube	
supra pubic catheter		S&S of UTI	
Catheter insertion:		Suprapubic tube	
Female		Tidal drainage	
Male		Urinary diversions(Ileo-conduit)	
Diabetic care:			
ADA diet		Care of patients with:	
Blood glucose testing		AV shunt/fistula	
Foot care		Bladder disease	
Infection prevention		Cancer of kidney	
Insulin prep and administration		Cancer of prostate	
Insulin site rotation and education		Female reproductive organ cancer	
Skin care		Hysterectomy	
S&S hypo/hyperglycemia		Mastectomy	
Urine glucose testing		Nephrectomy	
Use of blood test meters		Renal Failure	
Dialysis:		Renal transplant	
Hemo		Transurethral resection	
Peritoneal

1-No Experience    2-Some Experience    3- Can perform independently    4- Proficient/can supervise and teach

<b>INTEGUMENTARY / ORTHOPEDIC:</b>	<b>Level:</b>		<b>Level:</b>
Amputation/stump care		Care of patients with:	
Arthroscopy/Arthrotomy		Amputation	
Assist in use of prosthetic devices		Arthritic disease	
Body casts		Burns	
Bucks extension		Decubitus ulcers	
Cast care		Gun shot	
Cast/splint application and removal		Hip replacement	
Circo-electric bed		Incisions	
Crutch walking		Knee replacement	
Range of motion		Laminectomy	
Spika cast		Skin cancer	
TENS		Stab wounds	
Traction:			
Skin			
Skeletal			
Transfers:			
documentation of wounds			
preventative skin care			
sterile dressing changes			
use of Braden scale			
wound enzyme debriders			
wound irrigations			

<b>ONCOLOGY:</b>	<b>Level:</b>		<b>Level:</b>
Bone marrow transplant		Administration chemo	
Counseling for:		Assessing analgesic effectiveness	
Altered image		Morphine pumps	
Grieving process		Narcotics via continuous infusion	
Imagery		Side effects of chemotherapy	
Relaxation techniques		Radiation therapy	

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please complete this checklist as completely and as accurately as possible. In the box provided beside each item, please enter the number corresponding to your skill level according to the key below. Fax completed checklist to (866) 868-0546.

1-No Experience    2-Some Experience    3- Can perform independently    4- Proficient/can supervise and teach

<b>IV THERAPY:</b>	<b>Level:</b>		<b>Level:</b>
Administration of chemotherapy			
Administration/mixing IV meds			
Blood/blood products administration			
Calculate dosages		Insertion of peripheral line:	
Calculate rates		adult	
Care of central lines:		child	
Infusion procedures		elderly	
Care of insertion site		TPN (total parenteral nutrition)	
Dressing changes		Intralipids	
S&S of complications		Nursing care, maintenance of:	
Record keeping		Broviac catheter	
Pump operations:		Buretols	
IVAC		heparin lock	
IMED		insertion of	
PIIC		Hickman catheter	
Other: _____		peripheral lines	
Start IV		porta-cath	
Hanging IV piggybacks		triple lumen catheter	
S&S of infection		Venipuncture	
S&S of infiltration			

<b>ADDITIONAL NURSING RESPONSIBILITIES:</b>	<b>Level:</b>		<b>Level:</b>
Admission procedure and initial assessment		capillary draw	
Injections:		heelstick	
Preparation of meds/syringe		venipuncture	
Record keeping		sputum	
Site prep, rotation and selection		stool	
Universal isolation procedures/ precautions		clean catch urine	
Knowledge of unit doses		24 hour urine	
Lab value interpretation		urine via indwelling catheter	
Pre/post op teaching		wound culture	
Prociem oriented medical records		Use of restraints	
SOAP caring		Charge nurse responsibilities	
Specimen Collection		Primary nurse responsibilities	
arterial blood gas draw		Team leading	
interpretation
